HYDROCARBONS DIVISION

# METRA HYDROCARBONS DIVISION

In METRA hydrocarbons division, we are positioned in the sale and distribution of fuels. We are an essential part of the supply chain of fuels to wholesalers through our imports of hydrocarbons from the main international producers.

## MISSION

Our mission is to establish commercial alliances with our customers that allow us to provide comprehensive solutions to all their performance needs and fuel consumption, contributing to a profitable and sustainable development of their business.

## VISION

To position ourselves as leaders in the sale and distribution of fuels being an essential part in the logistics chain of fuel supplies to wholesalers through the importation of hydrocarbons from the main producers overseas.

# VALUES

**1**

## **HONESTY**

We work with integrity and rectitude, keeping a fair treatment with all our clients.

**2**

## **TRANSPARENCY**

We provide clear and transparent information about our services and products.

**3**

## **PROFESSIONALISM**

We work under the highest standards of professionalism, promoting respect and objectivity.

**4**

## **COMMITMENT**

We are aware of the significance of complying with the work development within the established deadline.

# OUR SERVICE

We offer you, through our import logistics chain, an adequate delivery schedule and fuel distribution that will allow us to reach the place where your company needs to refuel its vehicles or units. By constantly analyzing price variations by geographic region, we are able to offer the best price and a steady supply to our customers.

## OUR PRODUCT

### Ultra Low Sulfur Diesel (ULSD)

With less than 15 ppm sulfur, which represents about 97% less sulfur compared to diesel sold in Mexico (500 ppm). This allows a greater autonomy of the fuel, reduction in the pollutants and increase in the useful life of the vehicles.

It also complies with the requirements of the Official Mexican Emergency Norm: NOM-EM-005-CRE-2015.

# INVESTMENT PERFORMANCE

Metra's hydrocarbons division offers considerable savings and improved fuel economy by ensuring:

- Quality standards.
- Litre to litre.
- Prices below PEMEX averages.

# BENEFITS & PROFITABILITY

## Fuel consumption

Being low in sulfur, it improves engine performance by 3% in daily consumption.

## Lifetime of Vehicles

Increases up to 20% the lifespan of each vehicle.

## Decrease in Emissions of pollutants

Reduces about 20% of carbon emissions affecting the environment.
